PATENT MEDIGINES,

Have gained the conflicence of vil who use them, and have proved one of the most valuable inventions of the age. They use a Shuttle, making the Lock suitch on both sides of the

Shuttle, making the Lock
sitch on both sides of the
cloth alike, which cannot be unraveled or pulled
out.
They are all made with the highest mechanical
axill and all warranted to work well on all kinds of
goods, from the lightest inbric to heavy leather. In
particular, we would call attention of all to our new
family Sewing machine. It has been manufactured
expressly for family use, and has met with favor
from all. It is so simplified as to render it impossible to get out of order, or derange its operations;
indeed it is so simple as to astonish one, that so
small a piece of mechanism will sew.

Over the Indiana Central & Day800. S. This is a machine got up on an entirely
new principle, different from anything ever before
offered to the public, and we considered, sasert that
for family use it has not an equal. It is very light
and tasty, runs very rapidly, is aimost noiselecs in
its operation, and uses a stratour Stedle. It is
so arranged as to be utterly impossible for it to miss
sitches. It has a tension on both sides, and marries
a large supply of thread on the under spool. The
motions are gained by two small cranks that run
without perceptible noise. The two threads are
worked in such a mannersa never to pull both at the
same time, and consequently, little flable to break.
The seam is very slastic and the thread does not
break in washing. It will do coarse work better
than any cheap machine now in market, as it uses
silk, cotton, or linnen with equal facility. Price 360

CHANGE

HUSTON BUILDING, Corner of Third and Jefferson, DAYTON, - ORIO.

Machines, with important improvements, at a reduction of \$25 on former prices, and to meet the demand for a GOOD, low-priced Family Machine, have introduced a NEW STVLE, working upon the same principle, and making the same stirch, though not so highly inished, at PIFTY-FIVE DOLLARS! The elegance, speed, noiselessness and simplicity of the Machine, the beauty and strength of stiffich, being ALIKE ON ROTH SIDES, impossible to ravel, and leaving no chain or ridge on the under side, the economy of thread, and adaptability to the thickest or thuncest fabrics, has rendered this the most successful and popular Sewing Machine now made.

At our various offices, we sell at New York prices, and give instructions free of charge, to enable purchasers to sew ordinary scame, here, fell, quilt, gather, but and tuck, all on the same Machine, and warrant it for three years.
